Standpipe System Zoning Requirements

This presentation will discuss how to supply water to the upper floors of a highrise building that are beyond the pumping capacity of the local fire department.

Our presenter for this meeting is David R. Hague, P.E. Dave is Staff Liaison for the NFPA Sprinkler Project including NFPA 13, 13D, 13R, 24, 291 and foam project including NFPA 11 & 16. Dave began his career designing fire protection systems including sprinkler, standpipe, water spray, fire pump and foam systems for the Automatic Sprinkler Corp of America. He has a total of seventeen years in contracting. Dave has spent sixteen years with NFPA and seven years in the insurance business as Manager of the Engineering Technical Unit of Liberty Mutual Property. He has served as technical editor and contributing author of several books including Fire Protection Systems for Special Hazards, NFPA 13, 20 & 25 Handbook, the Fire Protection Handbook and the Handbook on Commissioning of Fire Protection Systems. Dave is a Registered Professional Engineer in the State of MA, a Certified Fire Protection Specialist and is NICET Certified in Sprinkler and Special Hazards Systems.
