MENU: Beef \$40.00 (Prime Rib!)
Chicken \$35.00
Pasta \$30.00

NEW UL LISTED ANTIFREEZE – NEW HIGH PRESSURE DELUGE / PRE-ACTION VALVE

The first half of this presentation will review the new UL Listed Antifreeze that Johnson Controls (Tyco) has recently released named Liquid Freeze Protection (LFP™). LFP™ is listed to -10°F, 150°F and is listed for NFPA 13, 13R and 13D fire sprinkler systems. LFP™ is the only UL listed antifreeze on the market for fire sprinkler systems. The second half of the presentation will review the new DV-5A Deluge and Preaction valve that Johnson Controls (Tyco) released last month. The new DV-5A valve assembly will replace the previous DV-5 valve assembly and is UL, ULC and FM approved. The new DV-5A valve has a higher-pressure rating (300 psi), a lower pressure drop, a smaller footprint, is built with a modular trim concept, has one moving part and has an external reset

Our speaker for this meeting is Seth Wood from Johnson Controls (Tyco). Seth is the Northeast Business Development Manager for fire suppression products. Seth has been with Johnson Controls for nearly three years. Prior to joining Johnson Controls Seth worked as a fire protection consulting engineer in Boston for twelve years. Seth has experience working on different types of buildings that are located throughout the world. As a Business Development Manager, Seth works directly with Engineers, Architects, Owners, AHJ's and Contractors to assist them with technical questions, design assistance, specification reviews and presentations on different fire suppression brands that Johnson Controls offers, such as Tyco, Ansul, Chemguard, AquaMist and Pyro-Chem.

Please reserve for the May dinner meeting by Wednesday, May 8, 2019. Make checks payable to NEAFPSD and mail to NEAFPSD, P.O. Box 149, Wrentham, MA 02093-0149.
