Pasta \$30.00

Pressure Regulating Valves in Sprinkler and Standpipe Systems

This presentation will provide an overview of pressure regulating valves utilized in sprinkler and standpipe systems, with a focus on direct-acting adjustable and non-adjustable pressure reducing valves, and will include general code requirements of NFPA 13 and NFPA 14, selection, setting, operation, performance, features, options, and maintenance requirements.

Our presenter for this meeting is Peter Levine. Peter is the Vice President of Marketing and Business Development for the Croker Division of the Fire-End & Croker Corporation. Formed in 1911 by Chief Edward Croker of the New York City Fire Department, Croker is a leading manufacturer and supplier of fire hose and standpipe equipment and carries a comprehensive line of pressure restricting, reducing and pressure control valves for use in sprinkler and standpipe systems. Peter joined the fire protection industry when he came on board with Croker in 2009 and was the National Sales Manager of the Croker Division through 2016. He earned his Bachelor of Arts degree in Economics and Psychology at Rutgers University, New Brunswick.

Please reserve for the May dinner meeting by Wednesday, September 4, 2019. Make checks payable to NEAFPSD and mail to NEAFPSD, P.O. Box 149, Wrentham, MA 02093-0149.
