COST: \$40.00 at the door  
MENU: Beef \$35.00  
Chicken \$30.00  
Pasta \$28.00

**THE RELIABLE AUTOMATIC SPRINKLER MOBILE TRAINING UNIT**

Sprinkler designers are familiar with the design of deluge and preaction systems. This meeting will highlight the field application and operation of each valve and associated trim and give tips on strategies for the design of larger systems. Reliable Automatic Sprinkler's Mobil Training Unit which houses 8 different riser assemblies ranging from a wet alarm valve to an electric/ pneumatic double interlock system will be at the Double Tree to offer live tripping of several different systems. You are welcome to set up and trip the valves themselves.

Along with the trailer we will be fortunate to have Salvatore Izzo, Technical Service Manager for Reliable Automatic Sprinkler. Sal is a licensed professional fire protection and life safety engineer with over eighteen years experience in fire protection engineering design and consulting, sprinkler contracting, and fire protection equipment manufacturing. He graduated from the University of Maryland with a BS degree in Fire Protection Engineering. Sal began his career working for a national fire protection engineering consulting firm in New York City. Sal is actively involved in his community volunteer Fire Department, and has over 20 years of both volunteer and municipal Fire Department experience. Sal has been a Technical Services Manager with Reliable for the past twelve years. Come join us for this unique experience.

Please reserve by Wednesday, September 14, 2011. Make checks payable to NEAFPSD and mail to NEAFPSD, P.O. Box 149, Wrentham, MA 02093-0149 for reservations. Send all e-mail dinner reservations to:
