TIME: 5:30 PM Social Hour
6:30 PM Dinner
COST: \$40.00 at the door
MENU: Beef \$35.00
Chicken \$30.00
Pasta \$28.00

VICTAULIC VORTEX FIRE PROTECTION SYSTEM

Nearly zero wetting of protected areas; no need for costly clean-up or equipment replacement; green design that is safe for the environment and personnel; quick system recharge; minimal facility downtime; open space effectiveness; no need for assurance of room integrity. Obvious advantages for a fire protection system that can be used in a variety of sensitive applications. This is the Victaulic Vortex System which uses new hybrid technology developed by Victaulic's research and development group over a five year period of time.

Our presenter for this meeting is Frank Barstow. Frank was the Fire Product Manger overseeing the development of the Vortex system and many other inventions developed by this group. Frank has been with Victaulic for thirty five years. He was involved in the inception of the fire protection division for Victaulic beginning in 1983. For many years he was the divisional manager over this group. He then moved into special projects for Victaulic in the home office in Easton, Pennsylvania. He has been involved in the sales effort for Victaulic's Vortex system since its release in 2008. Frank is a graduate of Salem State College and currently resides in New Hampshire with his wife Mary.

Please reserve by Wednesday, November 9, 2011. Make checks payable to NEAFPSD and mail to NEAFPSD, P.O. Box 149, Wrentham, MA 02093-0149 for reservations. Send all e-mail dinner reservations to: rsvp_neafpsd@yahoo.com
